

# How to Make a Paper Football

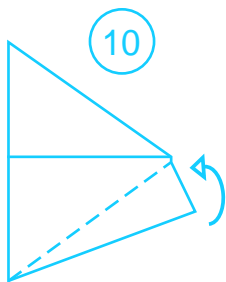

After cutting out template, fold paper lengthwise, along the center guide ①. Guides should still be visible after the fold is completed.

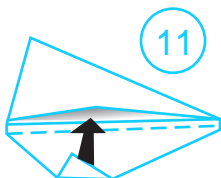

With the guides facing you, fold along guide ② so the top left corner folds down to the right.

Similar to step ②, make folds ③ through ⑨, always folding down towards you along the guides.

After folding ⑨, take the bottom right corner and fold it along the guide to form a triangle.

The final step is to take the bottom corner and stuff it into the flap created by fold ⑨.

Cut along dotted lines

Cut along dotted lines

For best results, keep folds accurate and tight

Fold ①: Fold along this line so that the guides are still showing

Fold ②: fold along line in direction of arrow

Folds #3-9: follow the arrows

Fold ⑩: fold this corner up

After fold ⑩, stuff this corner into flap from fold ⑨

Cut along dotted lines
